

REMARKS

This Supplemental Amendment makes obvious editorial corrections to the specification. The correction of all references to drawing reference numeral 13 as "strip-assembly 13" is supported by page 19, line 13. Similarly, the correction of "piston 14" as either --piston-type actuator 14-- or --electromagnet-type actuator 14-- is supported by page 19, line 14. Claims 19-41 are pending.

It is believed this application is in condition for allowance based on the Amendment filed October 15, 2004. The changes to the specification made by this Supplemental Amendment place the application in even better form for allowance.

It is not believed any fee is required for entry and consideration of this Supplemental Amendment. Nevertheless, the Commissioner is authorized to charge our Deposit Account No. 50-1258 in the amount of any such required fee.

Respectfully submitted,

James C. Lydon
